SKILLS

Languages: Java, Python, JS/TS, C/C++, C#, PHP

Backend: Spring Boot, Node.js, FastAPI, Laravel

Frontend: React, Next.js, Flutter, Tailwind

Databases: PostgreSQL, MySQL, MongoDB

DevOps: Docker, AWS, GitHub Actions, CI/CD

Concepts & Tools: Git, Agile/Scrum, Microservices, UML, REST APIs, OOP, Design Patterns

LANGUAGES

- Arabic — Native
- English — C1 (IELTS)
- French — Professional

CERTIFICATIONS

- IELTS C1 Level
- Google — Agile Project Management
- Duke University — Machine Learning
- IBM — Cloud Computing
- HKUST — Software Design & PM
- EPFL — OOP (C++)
- Cisco — Networking Basics
- +10 additional credentials

Final-year Software Engineering student at EMSI Marrakech, focused on **backend development, DevOps, and CI/CD**. Experienced building production full-stack systems and AI-powered applications — from scalable REST APIs and event-driven backends to mobile apps deployed on AWS. **Currently seeking a PFE internship for 2027 to contribute to challenging backend, DevOps, and full-stack engineering projects.**

EXPERIENCE

Software Engineering Intern — Full-Stack & Odoo ERP

Jun — Sep 2026

AMANUS · Marrakech · ON-SITE

- Built KickPro: Spring Boot 3 (127+ REST endpoints), Flutter app, Kafka, Gemini AI, AWS deployment.
- Developed custom Odoo 17 restaurant module integrated with Sales, Inventory & Purchase workflows.
- Implemented Docker Compose stacks and GitHub Actions CI/CD pipelines.

Software Engineer Intern

Jul — Aug 2025

Sofitel Marrakech — IT Department · ON-SITE

- Delivered Lost & Found platform with React, Node.js/Express, and MongoDB.
- Improved API performance ~30% via caching; secured APIs with JWT RBAC and Nginx.

Software Developer Intern

Jul — Aug 2024

Eureka Digital · Marrakech · ON-SITE

- Developed RESTful APIs with Python and Laravel in Agile sprints.
- Contributed to database design, optimization, and production feature delivery.

PROJECTS

KickPro — AI Football Talent Platform

2026

- Full-stack platform connecting players with scouts; Spring Boot, Flutter, Kafka, Gemini AI.
- Production deployment on AWS (EC2 + RDS); 32 JUnit tests, GitHub Actions CI/CD.

Parkingo — Smart Parking Platform

2026

🏆 1st Prize · EMSIstes INNOV'26

- Spring Boot API, Flutter app, Next.js dashboards, Gemini AI, WebRTC, Three.js 3D map.

Archlytics — Java Architecture Analysis Tool

2026

- CLI + GitHub Action: dependency graphs, violation detection, health scores, PR diff analysis.

EDUCATION

State Engineering Diploma — Digital Development & IS

2022 — 2027

EMSI Marrakech (Bac+5)
